# Renault KANGOO

Efficient, smart and versatile

5th January 2016  
Manufacturer's recommended retail prices

The Renault Kangoo  
**Efficient, smart  
 and versatile**

The Renault Kangoo Van has been specifically designed to meet the needs of professionals, whatever their business environment. With panel van, crew van and zero emission versions, the Kangoo can be adapted to your every demand, offering a wide range of custom-built and practical solutions. With its aerodynamic design, efficient engines, high levels of comfort and safety, and the latest on-board technology, the Kangoo holds all the cards.

Your  
**Comfortable workspace**

1. **A comfortable workspace.** Optimal visibility and ergonomic control create a car-like driving position. 2. **Overhead parcel shelf.** Spacious overhead storage ensuring large objects are close to hand. 3. **Comfort every day.** The specially contoured height adjustable driver's seat with added lateral support. A new driving position and height/reach adjustable steering wheel ensures total comfort. 4. **USB and AUX ports.** Providing mobile charging for all your modern gadgets and ease of use for playing music through the infotainment system. 5. **Central storage with armrest.** Ensures objects are conveniently located and safely transported. The armrest adds extra comfort to your workspace. 6. **Touchscreen.** R-Link Evolution is a built-in touchscreen infotainment system with access to navigation, radio, music files and telephone commands. 7. **Bluetooth and DAB radio.** Standard on every version.

ENERGY dCi Engine

# Double the performance

The Kangoo engine benefits from the best in modern technology. It consists of the dCi 75 hp, dCi 90 hp and dCi 110 hp and ENERGY dCi 75 hp and ENERGY dCi 90 hp engines, thus offering a large range to meet everyone's needs. With Stop & Start technology and the new regenerative braking system (Energy Smart Management), Kangoo achieves fuel economy of up to 67.3mpg\* helping you to minimise fuel costs.

The variable geometry turbocharger allows for flexible driving and instant pick-up, even under load, all the while giving more power at high speeds. Derived from Formula 1®, the regenerative braking system helps charge the battery when decelerating, recovering energy that would otherwise be lost, while Eco mode button optimises throttle response for maximum fuel economy with MPG improved by up to 10%.

Better fuel economy and more driving pleasure! With Kangoo, you win either way.

\*Approved conditions according to applicable regulations.

## Euro 6

Ensuring our customers take advantage of the latest engine technology, the Kangoo Van & Kangoo Maxi Van now offers several versions with Euro 6 compliant engines, well ahead of the regulatory requirement for LCV Euro 6 compliance on 1 September 2016. The Euro 6 engine standard reduces NOx (Nitrous Oxides) emissions by half compared to Euro 5.

Renault is proud that we have been able to reduce these emissions in our Kangoo Vans with the application of a NOx trap located in the exhaust system, meaning you still receive the maximum efficiency from all our engines.

### Winning Duo

**Rob White** Director of Renaultsport F1®  
**Gaspar Gascon** Director Renault Power Train Engineering

At Renault, technological innovation is driven by the passion of our employees. **Rob White, Technical Director of Renault Sport F1®**, works with his team to create the Renault engines that power multiple Formula 1® teams. Winning engines for over 35 years! World champions 12 times.

For production cars, **Renault Power Train Engineering Director Gaspar Gascon** and his staff have developed the new range of ENERGY engines.

Think the two are unrelated? Think again. On a day-to-day basis, Rob and Gaspar keep in touch, discussing and working together to develop new ideas, each benefiting from the other's know-how with the enthusiasm of born pioneers. Their goal: to reduce fuel consumption and CO<sub>2</sub> emissions by 35%, test engine strength under extreme conditions and take the everyday pleasure of driving a Renault to ever greater heights.

When two teams of engineers obsessed with innovation combine their efforts and share their expertise, the drive for creating some of the world's best engines is doubled.

Drawing on Renault's Formula 1® expertise, the Kangoo offers a range of engines that bring together economy, flexibility and performance. The ENERGY dCi engine meets the challenge of improving fuel economy above 67mpg, while maintaining driving pleasure.

# Introducing Kangoo Z.E.

Our 100% electric vans, Kangoo Z.E. and Kangoo Maxi Z.E. offer the same generous load capacity and options as the equivalent diesel but with ultra-low running costs and all the benefits of owning a Renault electric vehicle. Kangoo Van Z.E. is simply a pleasure to drive with silent yet instant pulling power. The benefits don't end there thanks to easy to charge solutions such as the wall box (for recharging from home) or charging stations at work or local public areas.

## 4 Reasons to go Z.E.

No compromises – same van with an all-electric drivetrain

- 1. Ultra-low running costs**
  - From 2p per mile, full charge from just £1.31\*
  - Reduced service, maintenance and repair costs
- 2. Multiple financial incentives**
  - £0 Road fund license
  - £0 Congestion charge
  - 100% Write down allowance
- 3. Take Full Control**
  - When you charge - with remote battery monitoring
  - Where you charge - with multiple public and private charging solutions
- 4. Reduce your carbon footprint**
  - Zero emissions whilst driving

\*Terms and conditions apply. Less than 2p a mile running cost based on (a) overnight electricity charges (British Gas Standard Economy 7 unit rates for payment via direct debit as at September 2015), and (b) a range of up to 106 miles per full charge. Renault Kangoo Z.E. can travel up to 106 miles on a single charge, based on the new European Driving Cycle (NEDC). Actual range may vary due to driving style, road condition, heating and other uncontrollable factors. Kangoo Z.E. emits zero CO2 emissions whilst driving. A daily standard charge of 26p also applies. Information correct at time of publishing.

Combining safety

# With flexibility

For the Kangoo Van, Renault has developed clever solutions to make the vehicle more practical, whilst improving safety. Features such as Electronic Stability Control with Grip Xtend and Hill Start Assist are now standard, reinforcing our promise of putting your safety first, even in difficult driving conditions. The Kangoo range also responds to your professional needs with a series of ingenious options and features providing manageable solutions for your every day needs. The intelligently designed Kangoo offers numerous possibilities.

The Kangoo uses a range of features to offer you flexibility. The multi-positional bulkhead cleverly lets you make the most of interior room, without wasting time or compromising passenger safety. When you are carrying crew, it sits behind the rear seats. When you fold those down for extra cargo space, it automatically follows suit to protect people in the front cabin. Simple, ingenious, and typical of our attention to detail – giving you a versatile load capability and a safer working environment.

There is an abundance of smart safety features on Kangoo. Electronic Stability Control (ESC) helps you to avoid collisions by detecting and reducing the danger of skidding, or losing control as a result of over-steering. The advanced traction control system, Grip Xtend, features two modes to optimise traction of both front wheels depending on the conditions. To further enhance the flexibility and safety of Kangoo, a wide range of accessories are also available.

All businesses will find a Kangoo model to suit their needs. Renault has equipped the Kangoo with everything you need to build a bespoke conversion and offers a network of accredited converter partners. The possibilities are countless!

Multi-positional bulkhead

Electronic Stability Control

Grip Xtend

# Versatile

As Europe's No. 1 Van Manufacturer Renault can propose a wide range of Kangoo variants to suit your specific needs.

## Kangoo Van

Loading is made easy thanks to the low load threshold, with load volumes of up to 3.6m<sup>3</sup> with Kangoo Van you'll have all the space you need.

## Kangoo Maxi Van

With load volumes of up to 4.6m<sup>3</sup> you'll have even more space. Need to get tools and a team to site? The Maxi Crew Van has seating for 5 and can carry the tools you need for the job – safely and securely.

## Kangoo Z.E. Van

Instant pulling power, silence and the simplicity of never having to change gear. Kangoo Z.E. is a pleasure to drive and is 100% electric.

# Practical

Kangoo is packed with a range of clever and practical features making life in both the cabin and loading area easier while saving you money.

1.

2.

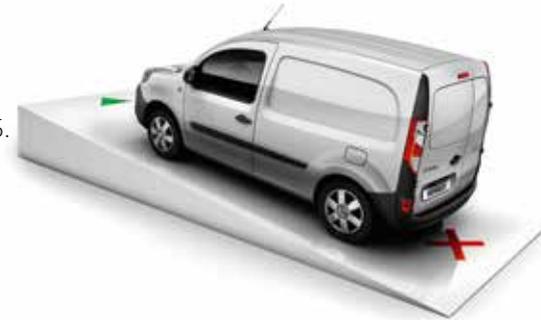

3.

4.

5.

6.

- 1. Eco mode.** Push the Eco mode button and activate a specific throttle response map optimised for maximum fuel economy.
- 2. Anchorage points.** Transport heavy objects securely and safely.
- 3. Dashboard storage compartment.** Convenient storage area ensuring objects are close to hand.
- 4. Rear roof flap.** The ingenious sliding roof flap allows the vertical storage of oversized objects.
- 5. Hill Start Assist.** Makes hill start easy by holding the vehicle in place on an incline, giving you time to apply power so that you don't roll backwards.
- 6. Swivelling bulkhead.** The passenger seat folds giving a flat base and 0.6m<sup>3</sup> of additional load volume whilst ensuring the driver is fully protected.

# Stay connected

## Optional R-Link

Integrated 7" touchscreen multimedia system (with navigation). In addition to its many built-in features below, there are also applications to download from the R-Link Store. You can control it from the screen, steering wheel controls or even voice command.

1. **Main menu with 6 icons:** Discover the six available menus: navigation, multimedia, telephony, vehicle information, services and applications, system settings. 2. **Touchscreen navigation system** provided by TomTom® (12 months subscription to LIVE services from delivery). 3. **Multimedia** FM/AM/DAB tuner, connect devices via USB and AUX sockets or Bluetooth®. 4. **Reverse parking camera system** Rear parking sensors with reversing camera, which displays the image on the navigation system screen alongside guidance aids. 5. **Vehicle information** The fun "Eco Driving" coach gives you handy tips to improve your driving style and reduce your fuel consumption. 6. **Voice control** Set your destination, call a contact or launch an application with voice control.

## R&GO

Is an application that turns your smartphone or tablet into a touchscreen for your dashboard! The key features of the app are: **Navigation.** 3D vehicle navigation provided by CoPilot. **Vehicle.** Eco driving score, fuel consumption info, trip computer and rev counter available. The R&GO application is free to download for compatible Android and iOS smartphones†

# Kangoo Van and Kangoo Maxi - Standard Features

## Business

### Technology

- 2x15W DAB radio with AUX input, CD, Bluetooth and USB (Tunepoint) Connectivity
- Trip computer - multi-functional
- Eco Mode function

### Interior

- Electrically operated door mirrors
- Electric front windows
- TITANIUM upholstery
- Overhead central light console
- Load area lighting
- Central storage tray between front seats
- Closed glove box (not lockable)
- Dark carbon dashboard with instrument panel with rev-counter / Z.E. specific instrument panel
- Electric variable power-assisted steering
- Height adjustable steering wheel
- 6 anchorage points in load area (Kangoo Van, Kangoo Z.E. and Kangoo Maxi Crew Van) / 14 load anchorage points in loading area (Kangoo Maxi Van and Kangoo Maxi Z.E.)
- Storage compartments in front doors
- A4 storage in dashboard
- Driver foot rest
- Manual air conditioning with pollen filter (Kangoo and Kangoo Maxi Business dCi 110)
- 12v power socket (front)

### Exterior

- 15" SCRIPT wheels / 15" BRIGANTIN wheel trims (Kangoo Z.E.)
- Dark grey side protection mouldings
- Headlight accent in chrome (black on Z.E.)
- Front and rear dark grey bumpers
- Rear doors - unglazed, 180° asymmetric
- Left side loading door - unglazed (Kangoo Van) / left and right side loading doors - unglazed (Kangoo Maxi Van)
- Roof bar fixings

### Safety and Security

- ABS with EBD (Electronic Brake force Distribution)
- Airbag - driver
- Spare wheel / tyre repair system (Crew Van Z.E.)
- Full steel Bulkhead (Not applicable on Kangoo Crew Vans)
- Height-adjustable driver's seat
- Height-adjustable seatbelts with pretensioners and load limiters
- Deadlocking
- R.A.I.D (Renault Anti Intruder Device)
- ESC (Electronic Stability Control) with Hill Start Assist and Grip Xtend (1)
- Electronic immobiliser
- Remote central locking (2 button key)
- Seatbelt warning sound
- Lights-on warning sound
- Front and rear disc brakes\*
- 150 Amp alternator (Not available on Z.E.)

## Business Continued

### Specific Z.E. Equipment

- Front Z.E. charging socket
- Pre-heating function
- Standard charging cable 16A (IEC 62196 - Type 2 Mennekes) 4m
- Z.E. voice

### Crew Van add:

- Second row of 3 passenger seats
- Interior side panel
- Folding passenger rear seat (1/3 - 2/3)
- Unglazed left and right side loading doors
- Unglazed left and right side quarter panel
- Unglazed rear doors - 180° asymmetric

### Crew Van Cab

- Multipositional bulkhead

## Business+ Additional equipment to Business

### Interior

- Electrically operated and folding door mirrors
- Electric front windows (driver's side 'one-touch' descending)
- Centre console with armrest
- Overhead parcel shelf
- Load area rubber floor covering
- Manual air conditioning and pollen filter

### Exterior

- 15" BRIGANTIN wheel stylers
- Front and rear body coloured bumpers and gloss black wing mirrors
- Rear parking sensors

\* For ML19 dCi 75/dCi 90 and ML19 ENERGY dCi 75/dCi 90 versions drum brakes are fitted as standard. (1) No Grip Xtend on Kangoo Z.E.

Other goods or services supplied by agreement between the customer and the Dealer are not included.

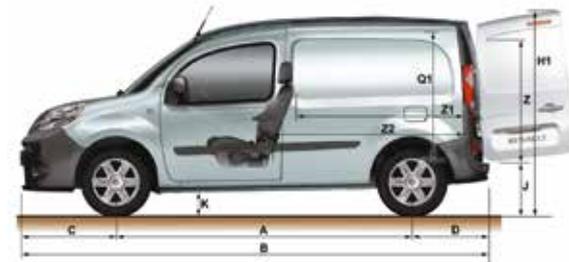

## Dimensions

CARGO AREA VOLUME (litres)	
Load volume mini/maxi	3,000 / 3,600*
DIMENSIONED DRAWING (mm)	
A - Wheelbase	2697
B - Overall length	4282
C - Front overhang	875
D - Rear overhang	710
E - Front track width	1521
F - Rear track width	1533
G - Overall width (without mirrors)	1829
G1 - Overall width (with mirrors)	2138
H - Maximum height	1844
H1 - Maximum height with opened rear doors	1934
J - Sill Height	558 / 609
K - Ground clearance (unladen)	157-210
K1 - Ground clearance (laden)	143-172
M - Elbow room	1510
N - Front interior width	1464
Q1 - Rear interior height	1251
Y - Rear width - top	1141
Y1 - Rear width - bottom	1219
Y2 - Width between wheel arches	1218
Z - Loading height	1129
Z1 - Loading length	1476
Z2 - Loading length at floor/with optional folding passenger seat	1731/2502

\*Maximum load volume with folded passenger seat

	Max. Load Volume	Max. Payload <sup>^</sup>
Kangoo Van	3.6m <sup>3</sup>	650-800kg

<sup>^</sup>Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and a reduced Payload.

\* Official Fuel consumption figures are produced for comparison purpose and are measured according to the European Directive 80/1268/EEC. These figures are specific for a vehicle type and not for a single car. Real world fuel (actual) consumption can vary as the fuel efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment for example air conditioning, can also effect the fuel consumption. For further information, please visit the Vehicle Certification Agency web site [www.vca.gov.uk](http://www.vca.gov.uk). For more information on CO<sub>2</sub> banding and Company Car Tax Benefit In Kind go to [www.renault.co.uk](http://www.renault.co.uk)  
<sup>†</sup> Whichever is sooner. <sup>‡</sup> Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and a reduced Payload. <sup>§</sup> For ML19 dCi 75/dCi 90 and ML19 ENERGY dCi 75/dCi 90 versions drum brakes are fitted as standard.

\* Official Fuel consumption figures are produced for comparison purpose and are measured according to the European Directive 80/1268/EEC. These figures are specific for a vehicle type and not for a single car. Real world fuel (actual) consumption can vary as the fuel efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment for example air conditioning, can also effect the fuel consumption. For further information, please visit the Vehicle Certification Agency web site [www.vca.gov.uk](http://www.vca.gov.uk).  
† For more information on CO<sub>2</sub> banding and Company Car Tax Benefit In Kind go to [www.renault.co.uk](http://www.renault.co.uk) † Which ever is sooner † Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and a reduced Payload.

How it works

# Battery hire

This Kangoo Van Z.E. offering allows you to buy the vehicle and lease the battery, which not only reduces the purchase price, but also gives maximum peace of mind.

Battery performance is guaranteed to at least 75% of it's original charge capacity. If not, we'll repair or replace it.

No worries – complete 24/7 roadside assistance, even if you run out of charge.

You enjoy your Z.E. while we keep its heart healthy. It's that easy.

You only pay for what you need – you tell us how many miles you'll do and how long you'd like to keep your Z.E.; we personalise your battery hire monthly payment to your own individual requirements.

If the vehicle is sold to a dealer or another person, the customer simply signs the declaration form to confirm the new owner's details and sends it to Renault finance. Your obligation will cease once the new owner takes over the battery hire agreement.

## Kangoo Van Z.E. - Range Overview and Pricing

### Battery hire

We believe that the battery hire principle provides the most affordable, reassuring method to own an electric vehicle. As part of the battery hire agreement we provide a guarantee in terms of the battery capacity throughout its motoring life. In addition, we will arrange recovery of your Z.E. vehicle in the event of breakdown or loss of energy.

Other goods or services supplied by agreement between the customer and the Dealer are not included.

### Battery Rental for Kangoo Van Z.E. Excluding VAT (with Assistance for all breakdowns)

Contract term <sup>^</sup>	Mile/Year			
	6000	9000	12000	15000
36 months and over	£33	£35	£47	£60
24 month	£42	£44	£56	£69

<sup>^</sup>The mileage bandings above represent the most commonly required distances. If you drive further than this we will have a banding that suits you. Please ask your dealer for more details. Excess mileage is charged (inc VAT.) 6.25p. <sup>^</sup>Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and a reduced Payload.

How it works

# Full purchase

In addition to battery lease we also offer the i Range which allows you to buy the vehicle and the battery.

No on-going monthly payments, just one simple payment.

No Mileage limit in the battery contract.

Battery guarantee of 5 years / 60,000 miles (100,000 km), whichever comes first, this includes the battery performance guarantee to at least 66% of its original capacity.

Roadside assistance, breakdown only.

## Kangoo i Van Z.E. - Range Overview and Pricing

### Battery purchase

In addition to Kangoo (battery hire) we also offer Kangoo i which allows you to buy the vehicle and the battery.

\*The Kangoo Z.E is homologated to 106 miles according to the NEDC (New European Driving Cycle). The NEDC can best be compared to the combined mpg figure for petrol and diesel cars. This range is a comparative indication of range measured under very specific conditions (described below). Exactly as with petrol and diesel cars, when driven under real conditions, this range will vary according to speed, driving style, the terrain of the road and the use of air conditioning / heating. If the vehicle is driven in temperate conditions then the range could more realistically be approximated to 78 miles for an average suburban trip. If the vehicle is driven in extreme winter conditions then the range could more realistically be approximated to 50 miles for an average suburban trip. NEDC (New European Driving Cycle) is a standard European measurement of emissions and consumption based on a rolling road test. It is the same standard for petrol and diesel engines as it is for electric cars. It is an objective way to measure the performance gaps between competition models. The car is on a rolling road, undertaking the same urban cycle (ECE-15 cycle) three times, then the extra-urban cycle once. The average of these 4 cycles decides the NEDC range. \*Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and a reduced Payload.

**PIVG - Plug-in Van Grant.** - In order to help reduce carbon emissions in the UK, the Government has launched the Plug in Van Grant (PIVG) scheme which is intended to run from April 2015. The scheme will be managed by OLEV (Office for Low Emission Vehicles) who are a cross Government team within the Department for Transport. This scheme provides a grant of 20%, up to a maximum value of £8,000, towards the cost of a new ultra-low carbon van, which is provided to a consumer at the point of purchase. The grant is applied to the Total Retail Price which includes the basic price and the VAT (this excludes the delivery charge, first registration and any optional extras).

# Kangoo - Accessories

**1. Roof rack:** Version available for each size of van, carries up to 100kg and easy to use design – side bars for tying down, no front cross bar **2. Standard roof bars:** Steel bars finished in black PVC, carries up to 100kg load and designed specifically for and by Renault. **3. Towbar:** Renault goes above and beyond even the strictest European standards (CE 94/20), thanks to further testing, Renault have also made sure that your vehicle won't be damaged, even with intensive commercial towbar use. Finally, Renault also take the most demanding climatic conditions into account by applying an anti-corrosion surface treatment. **4. Rear Window Protection Grilles:** Protects the vehicle from break-ins through the rear windows / doors whilst allowing visibility. **5. Ply lining:** Protect the interior of your new Kangoo with our hardwearing, bespoke ply lining. The price includes fitting by Renault. Our lining kits are fitted without any alteration/drilling to the vehicle structure, ensuring that the paint and anti corrosion warranties remain intact. **6. Rear Body Coloured Parking Sensors:** Allows you to park with confidence. **7. Alarm:** The essential accessory to ensure the van's security. It will guard against theft of the vehicle and objects inside it.

# Kangoo - Servicing Grid

CONTENT	DURATION	BASIC PRICE (£)	TOTAL RETAIL PRICE
Servicing only	3 years / 30,000 miles	232.00	£278.40
Servicing only	3 years / 48,000 miles	551.00	£661.20
Servicing only	4 years / 66,000 miles	699.00	£838.80

Contracts must be paid in full at the time of purchase and can be purchased up to one year after vehicle registration, or before the first service is due.

Terms & Conditions:

Servicing only: Covers vans for manufacturer servicing up to the age and mileage limit stated, whichever comes first. Services must be carried out in line with the manufacturer's minimum maintenance programme requirements and servicing intervals within +/- 1 month or 1,000 miles of the service interval and can only be carried out at a Renault Approved UK outlet. For manufacturer's minimum maintenance programme full details please refer to the warranty and service sheet in your handover folder. Service plan does not cover wear and tear items such as (but not limited to) tyres, brakes, wiper blades or brakes.

A sign of service

# Renault Pro+

A forerunner in service since the creation of Renault Business Centres in 1999, of which there are now more than 700 outlets in 20 countries, today Renault reinforces its services for professionals and commercial vehicle customers with nationwide "Renault Pro+ Dealer" coverage. For more information, visit [www.renault.co.uk/vans](http://www.renault.co.uk/vans)

At Renault, we understand that your vehicles are your most important work tool and so the Renault Pro+ network is guided by three main principles:

**01 The expertise of your advisor who has an extensive understanding of your trade**

At Renault Pro+ you are dealing with professionals: all of our employees are trained with your professional needs in mind. With their knowledge of commercial vehicles and fleet business, they are able to take care of your operational needs and create mobility solutions tailor made for you.

**02 A "One Stop Shop" where all your service needs are taken care of to guarantee your mobility**

Because you need to save time, all Renault services have been relocated to a bespoke centre, providing new and used vehicle sales, after sales, finance, service and maintenance.

**03 The Renault Pro+ business customers promise**

To ensure your business minimizes unproductive time off the road, Renault Pro+ offers you:

- Specialist commercial vehicle sales and after sales advisors.
- A comprehensive display of commercial products, including converted vehicles.
- A large choice of commercial vehicle available for test drives.
- A detailed invoice and an estimation of work time for all repair work.
- A courtesy vehicle, most applicable to your needs.
- Maintenance and repair work for vehicles up to 7 tonnes in weight.
- Within the hour diagnostics.
- A maximum 48 hours lead time for service and repair.

## WITH 4 YEARS WARRANTY AND RENAULT ASSISTANCE AS STANDARD

### 4 YEARS WARRANTY

Your vehicle is covered by a warranty package for up to 4 years /100,000 miles (whichever comes first). The first 2 years are unlimited mileage, followed by a further 2 years up to 100,000 miles. Your dealer is able to repair or replace, without charge, parts that are found to have a material or assembly defect that is recognised by Renault. The paintwork warranty runs for a period of 3 years and the anti-corrosion warranty for a period of 12 years.

### 4 YEARS RENAULT ASSISTANCE

Should you need it, we'll provide emergency roadside repairs or tow you to the nearest Renault dealer (or nearest Z.E. specialist for electric vehicles). This service is available 24 hours a day, every day of the year. Renault Assistance Cover provided from months 0 to 48 includes, assistance at the roadside and home, national recovery, onward travel with European cover from months 0 to 36 only. Cover includes mechanical or electrical defects covered by the warranty. For Z.E. vehicles with a Battery Hire Contract the Renault Assistance cover is linked to the period of the Battery Hire Contract with RCI Financial Services Ltd.

### FINANCE OPTIONS

There are a wide variety of ways in which the purchase of a new vehicle can be financed. Renault Finance offers all of them, so whether you're a fleet buyer or private buyer, Renault Finance is ideally placed to tell you which plan or combination of plans best suits your needs and circumstances.

**4+** The 2015 4+ package applicable to new vehicles when ordered from a UK Renault Approved Dealer from 1 January 2015. All vehicles provided with 4 years' warranty and Renault Assistance as standard. For warranty exclusions refer to Terms & Conditions. For full Renault Warranty Terms and Conditions visit [www.renault.co.uk/warranty](http://www.renault.co.uk/warranty). For Renault Assistance Terms and Conditions visit [www.renault.co.uk/assistance](http://www.renault.co.uk/assistance). The Renault Service Plan covers the manufacturer's minimum maintenance programme requirements for the term and of the plan purchased (refer to the Warranty and Service sheet in the Handover Document wallet for details). The plan ends when you reach the age or mileage limit (whichever comes first). Services must be carried out in line with the servicing intervals and can only be carried out at a Renault Approved UK outlet. To qualify you must order and purchase the Service Plan from a Renault Approved UK outlet before the first service is due or 12,000 miles (whichever comes first). Cannot be part exchanged, refunded or transferred. Finance provided by RCI Financial Services Ltd, P.O. Box 149, Watford, WD17 1FJ. Guarantees and indemnities may be required. You must be at least 18 and a UK resident (excludes Isle of Man and Channel Islands) to apply. Subject to status, terms and conditions apply.

### RENAULT INSURANCE

A van as well designed as your Renault deserves an insurance policy to match. Renault Van Insurance has been specifically created to provide superb protection for you and your van. In addition to a very competitive premium, Renault Van Insurance also includes:

- Your van returned to its pre-accident condition;
- A like for like replacement if written off in first 12 months of registration;
- Signage cover included in your premium;
- Windscreen cover;
- All repairs carried out by Renault Approved Accident Repair Centres which ensure the repair to manufacturer standards;
- Genuine Renault Parts to safeguard your warranty and to preserve the safety found in all our vehicles

Renault Van Insurance offers unbeatable protection, only fitting genuine Renault replacement parts at Renault Approved Accident Repair Centres.

If you need any help, or have any questions please do not hesitate to contact us and we will be happy to talk things through with you. Our lines open 8am – 8pm weekdays, 9am – 5pm Saturdays and 10am – 3pm Sunday. Calls may be recorded. All quotes are based on individual circumstance and subject to insurers underwriting criteria.

Renault Insurance is arranged and administered by iGO4 Partners Limited which is authorised and regulated by the Financial Conduct Authority. Financial Services Registration Number 490061. Registered Office: Sundance House, Staniland Way, Werrington, Peterborough, PE4 6JT.

Registered in England & Wales No. 6710272.
